- **Programming Languages:** Python, JavaScript, TypeScript, Java, HTML, CSS
- **Frameworks & Libraries:** React, Next.js, Vue.js, Vue 2, Vue 3, Vue Bootstrap, Django, Django REST Framework, NestJS, Tailwind CSS
- **Databases:** PostgreSQL, MySQL, MongoDB, NoSQL
- **Tools & Platforms:** GitHub, Postman, Swagger, Vercel, VS Code, WebStorm, PyCharm, DataGrip, dbForge Studio, Arduino

WORK EXPERIENCE

TUS Solution – Junior Software Developer

Feb 2024 – July 2024

- Contributed to the development of **tuss.io**, a company management platform, as a full-stack developer
- Built and maintained frontend features using **Vue 2, Vue 3, and Vue Bootstrap**
- Supported backend development using **Django** and worked with **PostgreSQL** for database-related tasks
- Researched technical solutions, prepared migration guides, and contributed to technology stack decisions

Mezorn – Software Developer Intern (Junior Software Developer)

Aug 2023 – Jan 2024

- Built **studio.mezorn.com**, a no-code website generation platform for designers and frontend developers
- Developed frontend features using **TypeScript, React, Next.js, and Tailwind CSS**
- Contributed to the launch and deployment workflow using **Vercel**
- Worked in a structured **Agile development environment**, participating in sprint-based collaboration and delivery processes
-

Tomujin Digital Tech - Backend intern

Oct 2022 – Feb 2023

- Contributed to backend development for **Elf Hearts**, a mobile educational application for Elf Education companies
- Worked with **NestJS** and **TypeScript** to support backend feature development
- Processed and implemented **Entity-Relationship Diagrams (ERDs)**
- Managed data in **MySQL**, helping ensure data integrity and application functionality

Fractal Technology – Frontend Intern

Mar 2023- May 2023

- Developed dynamic e-commerce websites using HTML, CSS, React, and Tailwind CSS.
- Actively engaged in skill enhancement within the frontend domain, embracing opportunities to refine and expand my capabilities.

LEADERSHIP

Scientific Project Conference in MNUE - Team Leader

June 2023 – July 2023

- Designed a remote-controlled selfie hand using Arduino Uno, a Relay module, and an IR receiver
- Built the model product and participated in an academic project competition, winning a silver medal

ADRF Mongolia NGO - “Dudu project” Volunteer Teacher

June 2023 – Aug 2023

- Developed Tech Club academic curriculum with a focus on foundation programming principles
- Taught basic programming to 12 students using Scratch and Arduino
- 84% of students successfully completing independent programming projects by the end of the course

HONORS AND GRANTS

- Scientific Project Conference, Silver Medal (2023)
- National Math Olympiad, Silver Medal (2020)
- National Physics Team Olympiad, Bronze Medal (2020)
- Regional Chess Competition, Bronze Medal (2019)

LANGUAGES

- Mongolian (fluent)
- English (C1)
- IELTS: 7.0 (Reading: 7.5 / Listening: 7.5 / Speaking: 7.5 / Writing: 6.0)
